Program

6 modules :

Foundations of Supply Chain Resilience
 Risk Management in Supply Chains
 Strategic planning, data-driven decision-making and Collaboration
 Secure and flexible systems
 Leadership and resilient organizational culture
 Sustainability, Innovation and Technology in Supply Chain Resilience
 of your supply chain.

Duration, pedagogical sequencing and tools

The course lasts 10.5 hours, divided into 3 half-days of virtual classes. It is essential to set aside time for personal work (30 hours in total).

The training sessions are built around practical applications that require prior reading of the chapters on the ASCM platform: discussions on key points, questions/answers, exercises, case studies, professional illustrations, group work.

To support personal work, we provide:

- Access to the ASCM e-learning platform: online materials, videos, quizzes.
- Access to AGILEA's Next platform: additional resources and workspace for running virtual classes and sharing between learners.
- Training exercises, illustrations, questions, group work, etc.

Results monitoring and assessing

ASCM Resilience Certificate exam : open-book exam.

Methods for evaluating training by learners

At the end of the training course, a training assessment questionnaire is handed out, aimed at evaluating :

- o the overall level of satisfaction
- o the achievement of the defined objectives
- o possible areas for improvement in terms of both content and form

An attendance sheet will also be signed for the training.
