

Training

Form'action Sustainable Supply Chain

Objectives

For the learner :

- > Understand and identify the environmental, economic, and regulatory challenges related to their work environment
- > Understand the human dimension: barriers and drivers of change
- > Identify, based on the mapping of their company's value chain, the operational constraints as well as financial and environmental impacts
- > Become aware of the levers for reducing, mitigating, or eliminating these constraints and impacts
- > Prepare a multidisciplinary action plan with priority actions to initiate a CSR (Corporate Social Responsibility) approach

For the Company :

- > Understand the environmental, economic, and regulatory challenges specific to your sector
- > Collaborate with internal and/or external stakeholders based on identified issues
- > Co-develop technical and organizational solutions that engage teams to strengthen the company's resilience
- > Start CSR strategy

At the end of the training program, the learner will be able to:

- Develop a unified mapping of risks, opportunities, and impacts related to the value chain
- Identify actionable tools and solutions from both technical and human perspectives
- Build a multidisciplinary roadmap to transition toward a more resilient supply chain aligned with CSR requirements
- Gather key elements to engage the company in a CSR certification process

Public and Prerequisite

SMEs or mid-sized companies: Supply chain, transport, purchasing, operations, or CSR managers

Possible next stages and opportunities

This program enables companies to initiate a CSR approach

Access Deadline

Program

Day 1 (face-to-face): Understand the environmental, economic, and regulatory challenges of your value chain, address change, and share best practices

Day 2 (half-day online): Assess the challenges of your value chain

Day 3 (face-to-face): Collaborative workshop to identify actionable tools and solutions, and initiate a Sustainable Supply Chain roadmap integrating:

- Climate change
- Circular economy
- Pollution / Water / Biodiversity
- Organizational aspects and habits

Duration, pedagogical sequencing and tools

- Experience sharing and collaboration at the heart of the learning process
- Alternation between individual and group sessions
- Playful approach to foster creativity, engagement, and connection among participants
- Use of the AGILEA NEXT platform, a collaborative digital platform to facilitate workshops and action deployment

Results monitoring and assessing

Methods for evaluating training by learners

At the end of the training, a feedback questionnaire is provided to learners to assess:

Overall satisfaction

Achievement of defined objectives

Areas for improvement in both content and format

An attendance sheet will also be signed for each half-day session.
